

Career-Technical Education Day at the Roundhouse!!

January 21, 2019

CTE students, to a much greater extent than their non-CTE counterparts, report that they developed problem-solving, project completion, research, math, college preparedness, work-related, communication, time management and critical thinking skills during high school.

Visit the State Capitol of New Mexico and share in our great democracy. Contact your legislator for a face-to-face meeting and prepare students to join them on the floor or in committee meetings! We were ABLE to obtain space in the main floor halls this year, so please come prepared to set-up displays, if you are able! Share your experiences and influences regarding your Career Technical Education Program directly with the legislators in their office and attend the committee meetings and general sessions!

Don't miss the Sunday Evening Event for your students! Make the trip educational as well!

The New Mexico Association of Career Technical Education and NM Career Technical Leadership Program will be co-sponsoring an event just for your students! As always, we are excited to be able to provide knowledgeable speakers who will present ways in which the CTE students of New Mexico can best be utilized in policy making decisions. You won't want to miss this opening leadership development opportunity for your students!

Come Sunday, January 20th from 6:00 p.m. – 7:30 p.m. at the DoubleTree by Hilton
