Career Technical Education

NM Career Technical Student Organizations:

The Career Ready Practices component of the CCTC provides a framework for the developmental experiences necessary to becoming career ready; experiences that can be “practiced” using many different approaches in a variety of settings. Student refine these practices throughout their full continuum of learning: through their journey in school, college, the workforce and when they return to advance their education. - See more at:

A career-ready individual...		
Acts as a responsible & contributing citizen & employee	Applies appropriate academic & technical skills	Attends to personal health & financial well-being
Communicates clearly, effectively & with reason	Considers environmental, social & economic impacts of decisions	Demonstrates creativity & innovation
Employs valid & reliable research strategies	Utilizes critical thinking to make sense of problems & persevere in solving them	Models integrity, ethical leadership & effective management
Plans education & career path aligned to personal goals	Uses technology to enhance productivity	Works productively in teams while using cultural/global competence

Career Technical Education

These practices are not exclusive to a Career Pathway, program of study, discipline or level of education. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

Career Ready Practice		
Act as a responsible & contributing citizen & employee	ie: Cooperative learning group peer evaluation, appropriate dress and materials...	ie: Monthly meeting attendance, chapter committee member, community service project...
Apply appropriate academic & technical skills		
Attend to personal health & financial well-being		
Communicate clearly, effectively & with reason		
Consider environmental, social & economic impacts of decisions
